A LEAVENWORTH dispatch states that the agent of the Missouri Pacific has received instructions to announce a 2 cents per mile rate from Leavenworth to Kansas City. What the Missouri Pacific does the other roads must do. And what is done between Leavenworth and Kansas City must be done between other towns. It looks as if there had been a break made.

GOV. HUMPHREY has appointed D A. Valentine, of Clay Center, regent of the State University to fill the vacancy caused by the resignation of Hon. J. F. Billings: Mr. Valentine is one of the best known young Republicans of Kansas, a fine business man and a man of much force and character. He will give conscientious and intelligent service to the University and all the friends of that institution will heartily endorse bis appointmen

Kansas City Gazette: Congress man Funston's bill, for the appoint ment of a commission to investigate the causes of agricultural depression is a movement in the right direction When the causes are ascertained, which ought not to be very difficult of accomplishment, the Emporia Republica save the Kansas delegation should spare no effort to obtain congressional relief. Some of the prime causes of depression are aiready well known and hills have been introduced to re move them. The Kansas Senators and Representatives might profitably em ploy their time, or a portion of it at least, in watching for opportunities to press these measures to passage. Re lief cannot come any too soon.

SOME AGRICULTURAL QUERIES.

Editor Register I would like to inquire through the columns of the REGISTER how those farmers have succeeded (or failed,) that have plant ed corn on the same ground after oats had been taken off. I noticed last year that many farmers around Carlyle had such crops growing, and as late as the season was last year, it does seem it would pay to let us hear from some of them.

I would also like to know the bes way to prepare the ground for clover, and when to sow, and what variety of clover is best for hog pasture. It does seem to me it would be more profitsble to have some clover for hoge and keep enough hogs to eat up what corn a farmer would raise, rather than sell corn at fifteen cents per bushel.

tias any one got a variety of pots toes that are better in quality and more productive than the Early Kansas, providing they have tried the Early Kansas?

Has anyone tried flax on bottom I. B. LAWYER.

RESOLUTIONS OF CONDOLENCE.

By F. M. B. A., Noble Lodge, No 886, and A. H. T. Order No. 77.

WHEREAS, The God in whom we trust, has seen fit in His infinite love and sfilictions of this earth to the rewards of heaven, our brother, Joseph Estep, a member of our respective societies who was twenty-seven years of age, was born in this county and grew to manhood among us. He quietly passed away on the evening of January 21st, with that dreaded disease, consumption. And, whereas, we believe it is always well to keep in memory the virtues of the departed, that the living may draw therefrom lessons of wisdom, therefore be it.

Resolved, That in his death the trust of the departed, that the living may draw therefrom lessons of wisdom, therefore be it.

SOME SOUND SENSE.

The Texas Siftings makes some points about advertising in the following, well worth careful consideration:

The man who is in any kind of business whatever who refuses to advertise is going to regret it sooner or later, but probably sooner. Not only must the business man advertise, but he must keep right on advertising if he expect to prosper. A single advertisement is not enough. You cannot eat enough at one meal to last a year, and you cannot advertise on that plan either. The surest way is—advertise. When a certain man was asked how he was going to manage his business during his vacation, his reply was: "I will just take my advertisement out of the paper and there will not be any business to manage." A well known authority on advertising says: "The man who says he don't believe in advertising, is doing just what he depreciates. He hangs coats outside his door or puts dry goods in his windows in the same on the wagon—that's advertising. If he has painted acrds lying on his counter—that's advertising. He has painted the same in gill lettersoil ver—we, what is that but advertising. He paints his shop green or red, or, if he is a tailor, he wears the latest styles; if a doctor, he has a boy call him out of church in haste; if an auctioneer, he bellows to attract the attention of the passer-by, if a heavy merchant, he keeps a plie of boxes on the sidewalk in front of his doors—and all for advertising. A man can't do business successfully without advertising, and the question is whether to call to his aid the engine that moves the world—the printing press with its thousands of messengers that are working by night and by day—or go back to the days when newspapers. Telegraphs ing, well worth careful consideration: The man who is in any kind of busi

OUR HORSES AND THEIR BRENDING.

Twenty years ago there was not any draft stock here. The mares were small and were said to be well bred Morgans. Many of these were bred to petitions in favor of free coinage of sil-ver and for a service pension; also, by believe ended his days on the farm of request, a bill relating to fees in the Frank Bray. "Old Tobe" was a well order's office District of Columbia; bred horse, being out of a well bred also two private pension bills. Senator Plumb presented petitions praying for the free coinage of silver, the prohibition of trusts and combines and the granting of service pensions; also reported a bill from the public lands committee to authorize the Secretary of the Interior to convey to the State of Kansas certain lands, also a private pension bill. Mr. Peters introduced a bill to divide the State of Kansas into two judicial districts. Mr. Perkins introduced a bill to provide for the allowment of lands in severalty to the Quapaw Indians; also called up his Oklahoma town site bill and after a long debate, which was participated in also by Mr. Peters, secured its passage Mr. Morfill introduced a private pension bill. Mr. Funston introduced petitions for pension legislation; also for legislation to protect farmers.
